Helena, MT 59620-0901

Practical and Effective Solid Waste Equipment Maintenance & Solid Waste Equipment Rodeo

At the Billings Best Western Kelly Inn and the Billings Regional Landfill

Operating heavy equipment costs a lot of money. Failing to make needed repairs due to a poor equipment maintenance program is not good business! Completing a maintenance inspection checklist can take as little as 15 min/day, and might catch a problem before it costs several days of equipment down time.

On the second day of this two-day training you'll have a chance to show off your skills in operating solid waste equipment, as well as view equipment demonstrations provided by heavy equipment dealers. Even if you're not participating in the rodeo, plan to stay for day two!

6 SWANA CEUs are allocated

April 29-30, 2014 Billings, Montana
